THE THAMES IS THE BUSIEST INLAND WATERWAY IN THE UK. THERE ARE MORE THAN TEN MILLION PASSENGER TRIPS ON THE RIVER EACH YEAR. THE LONG TERM GROWTH PLAN, THE THAMES VISION, SEES THIS DOUBLING BY 2035.

FREIGHT MOVED BETWEEN TERMINALS ON THE THAMES FREQUENTLY EXCEEDS FOUR MILLION TONNES A YEAR. CONTINUED INVESTMENT BY THE PLA IS BRINGING MORE WHARVES BACK INTO OPERATION WILL UNDERPIN LONG TERM GROWTH IN FREIGHT MOVEMENT BY RIVER.

THAMES OPERATORS CONTINUE TO INVEST IN NEW PASSENGER AND FREIGHT VESSELS.

ABOUT THE EVENT

We are convening the Thames' first Greening Inland Shipping Conference & Exhibition at Siemens Crystal on 10 September 2019.

The event is being held to give Thames vessel operators and interested stakeholders an opportunity to find out more about lower and zero emission vessel technology.

Hosting this event is one of the 18 actions set out in the Air Quality Strategy for the tidal Thames – the first for any UK port – which we published in May 2018. These actions provide a framework for collective effort to reduce emissions of air pollutants from vessels on the river, including particulates and nitrogen oxides.

The Conference

The conference is set to be centred on three themes:

- The evolving political and environmental context for river operations
- Development & research into new technology
- Operators' experience adopting and using new technology

In combination, the sessions will reflect: the imperative for change; the technology available today and in development; and practical experience of operators bringing new technology into operation. Potential speakers have been approached and the programme of confirmed guests will be confirmed shortly.

The Venue

The Greening Inland Shipping Conference & Exhibition is being held at the Siemens' Crystal, (One Siemens Brothers Way, Royal Victoria Dock, London, E16 1GB) one of the world's most sustainable buildings and home to the world's largest exhibition on the future of cities.

THE EXHIBITION

The exhibition will feature stands from companies active in developing, supplying and being a catalyst for the adoption of new technologies which reduce or eliminate vessel emissions.

Please note, this year there is **no cost** to exhibit at this event and exhibition tables will be provided. However, spaces will be limited so we suggest you book your exhibition place soon to avoid disappointment.

The Visitors

- Vessel owners, operators and fleet managers
- Vessel builders and repairers
- UK and international harbour masters
- Marine consultants and surveyors
- Police, fire and rescue authorities
- Trade associations and professional institutions
- Research establishment personnel
- Local authorities and regulatory bodies
- Port personnel, marina and wharf operator

Exhibitor Registration

Exhibitors will receive five Complimentary Conference Registrations, as part of your Exhibitor arrangement.

Mailing List

As an added benefit to your exhibit space at the Greening Inland Shipping event, your company's logo will be included on all our communications to our entire mailing list for this event.

EXHIBIT HOURS AND DETAILS

Exhibits Open

Tuesday, 10 September: 9:30am to 4:00pm

ALL Coffee Breaks and Snacks will be held in the exhibit hall as will the Registration Session.

EXHIBIT SPACE

Fees

- **Free of Charge** bookings confirmed by **31 June**

ADDITIONAL INFORMATION

- Exhibition stand size- 80cm(W) x 70cm(D) x 160cm(L)
- Space for sign/banner with company name
- Electric outlets upon request.
- Five complimentary Conference registrations
